SUMMARY

Certified professional experienced in **development** and **analytics** seeking roles in **AI automation and workflow** with an interest of understanding the systems to improve security posture of products

PROJECTS

- open-multi-agent

2026-02 – Present

 - **multi-agent orchestration** platform leveraging FastAPI (gateway), LangGraph, and local MCP (FastMCP) featuring **protocol-agnostic clients**, Redis-backed short-term and **RAG-based long-term memory**, **security controls**, and end-to-end **traceability** with security first AI orchestration added **A2A** extension support for OpenClaw
- GenericNoobAI

2025-11 – 2025-12

 - tool-augmented **multi-modal AI agent** for web search, computation, and research paper and audio analysis, achieving **30%+** performance on the **GAIA benchmark** for **general-purpose reasoning tasks**
- llm-compare-hub

2025-08 – 2025-10

 - **Visual prompt engineering platform** built with TypeScript (frontend) and FastAPI (backend), supporting 10+(**CoT**, Persona, Few Shot) research-backed prompting patterns with real-time evaluation, drag-and-drop workflow design, and persistent conversational memory

EXPERIENCE

- Data Analytics Intern

2024-12 – 2025-01

NFSU, Gandhinagar

Gandhinagar

 - Analyzed 50GB+ Gujarat Government supply chain dataset using **Pandas**, performing exploratory data analysis to identify 15 location-driven features and 10 data inconsistent fields impacting downstream processing
 - Engineered 5 new temporal features (distance, transit time, location dependency) and standardized coordinate formats, improving data quality for **anomaly detection workflows**
 - Built **rolling-average anomaly detector** flagging 10+ truck weight-shift events across 5GB sensor data.
- Development Intern

2025-07 – 2025-10

NCBitz Technologies Pvt Ltd

Remote

 - Engineered user and vehicle monitoring modules using React and **TypeScript** for WhiteCarbon ride management dashboard, developed dynamic form components for user, vehicle, and booking workflows delivered within a 3-week sprint
 - Integrated Node.js RESTful APIs with React frontend using asynchronous data fetching, reducing data synchronization latency for search queries from 10 to 3 seconds
 - Owned QA on the ride dashboard, shipping 5-10 client-requested fixes weekly

EDUCATION

- National Forensic Sciences University

Gandhinagar

Integrated B.Tech-M.Tech, CSE (Cyber Security), GPA: Current CGPA: 9.0/10 (Sem 5)

2023-08 – Present

SKILLS

- **Languages:** Python, TypeScript, JavaScript, SQL, PowerShell, Bash
- **AI & Data:** LangChain, LangGraph, RAG, MCP, Prompt Engineering, EDA, CrewAI, n8n
- **Tools:** Git, Docker, Linux, AWS, Oracle
- **Cybersecurity:** Burp Suite, WireShark, Nmap, Splunk, Sysinternals

CERTIFICATIONS

- OCI 2025 Generative AI Professional, Oracle

Oct 2025
- OCI 2025 Data Science Professional, Oracle

Oct 2025
- Certified in Cybersecurity (CC), ISC2

Feb 2025
- AI Agent Development, HuggingFace

Dec 2025
- Prompt Engineering, Vanderbilt University

Aug 2025

HONORS & AWARDS

- Global Citizen Year Academy - Tilting Futures, Tilting Futures

 - Global fellowship that trains leadership talent through asset based development, self discovery and international exposure
